

# News 2022|2

Preliminary announcement - The following new functions will be available with a Service Pack for ESI 2022/2:

- The functions "Product -> Vehicle use" - in which vehicles is the product installed and "Part -> Product use" - in which products is the spare part installed, are available in ESI[tronic] 2.0 Online.
- Archive instructions for the info types manuals (SIS) and component repair instructions (K) are available in ESI[tronic] 2.0 Online.
- Information on part kits (summary of all required wearing parts) is available in the equipment section of ESI[tronic] 2.0 Online (known as the function of the F7 key)
- Additional information on abbreviations used in the equipment section is available in ESI[tronic] 2.0 Online.
- The search function in the equipment section can now be reached and started more easily - a click in the search field and also the use of the Enter key is now possible.

## Important information:

As of January 2023, Windows 7 will no longer be supported by ESI[tronic] 2.0 Online. Future updates can no longer be installed from this date.

Please upgrade your existing Windows 7 computers or replace them with a new Windows 10 or 11 computer. Contact your ESI[tronic] 2.0 Online sales representative to obtain this new hardware.
